Field Capable Clinical Services for Older Adults

**A program funded by
The Mental Health Services Act**

Field Capable Clinical Services for Older Adults

Field Capable Clinical Services, also known as FCCS, are specialized services designed to meet the unique needs of older adults, ages 60 and above.

FCCS offers an alternative to traditional mental health services for older adults who may be unable to access services due to impaired mobility, frailty or other limitations.

For individuals who may be uncomfortable seeking services in a traditional clinic, FCCS may be a welcome alternative.

Services and support are provided in-home and in the community in settings such as senior centers or health care provider offices.

Who Is Eligible to Receive These Services?

Many times emotional problems, like sadness or anxiety, get in the way of enjoying life or being able to handle regular activities. Older adults whose lives are greatly affected by emotional problems may be eligible for FCCS.

Types of Services Available:

- Individual and Family Counseling
- Field-Based Services
- Culturally and Linguistically Appropriate Services
- Medication Services
- Linkage to Health Care Services
- Education and Support
- Help to Obtain Other Needed Services
